GLOBAL M4

Purpose Built Street Sweeper Designed for Your Needs

- ▶ Reliable / Durable Equipment
- ▶ Innovative Engineering / Design
- ▶ Industry Leading Reputation
- ▶ Dedicated Customer Service
- ▶ Outstanding Sales Professionals
- ▶ Fast Parts and Service
- ▶ National Dealer Network

Reliable • Affordable • Innovative

GLOBAL M4

PERFORMANCE

- ▶ The high-performance **Global M4** has unsurpassed pick-up capability across its full 125" sweeping path, even when facing the heaviest workloads.
- ▶ The performance matched equal-width pickup broom and elevator system eliminates choke points and improves sweeping speeds.
- ▶ In-cab gutterbroom down pressure controls combine with a self-adjusting pickup broom to give superior sweeping ability.
- ▶ The large 5.6 cubic yard hopper has a ribbed design which eliminates rust traps and is mid-mounted for balanced weight distribution and superior loading.

ENGINE

- ▶ Single Engine Design delivers outstanding performance by a fuel-efficient, turbo charged 280-horsepower 6.7 Cummins diesel engine that meets 2013 Emission Standards.
- ▶ Single Engine Design allows for easy service, less maintenance, lower fuel consumption and a shorter wheelbase making **Global M4** the purpose street sweeper of choice.

HOPPER

- ▶ The **Global M4**'s large 5.6 cu/yd hopper increases curb miles swept between dump cycles.
- ▶ Optional stainless steel is covered by a Lifetime Warranty, ensuring the lowest Cost of Ownership with a greater re-sale value.
- ▶ The extra large hopper can be discharged into roll-off containers or dump trucks with heights up to 9' 6".
- ▶ Dumping the large 12,000 lb payload is effortless and is accomplished from within the cab for increased operator safety and efficiency.

A BALANCED SWEEPING SYSTEM

- ▶ The 58-inch wide debris conveyor system features an overthrow design that helps to collect more debris.
- ▶ The 125-inch sweeping path offers unsurpassed pick-up ability even when handling the heaviest of workloads.
- ▶ Performance matched equal-width pick-up broom and dirt conveying system delivers faster loading and sweeping speeds.
- ▶ In-cab adjustment of dirt conveyor aperture allows more efficient pick up of leaves and bulkier materials.

MADE IN USA 

▶ PERFORMANCE. SAFETY. RELIABILITY. AFFORDABLE.

The **Global M4** is a street sweeper designed for all your needs. Its purpose-built design offers reliability, safety, low maintenance, and ease of use, resulting in the lowest operating cost per swept mile. These are the fundamental attributes of this high-performance street sweeping machine.

▶ THE BEST PURPOSE BUILT SWEEPER IN THE INDUSTRY

The inherent design of the **Global M4** makes it the logical choice among 4-wheel mechanical sweepers. With the center mounted/cab forward layout the operator has unsurpassed visibility of the road surface as well as pedestrians and surrounding traffic. The large hopper capacity equals more lane miles swept between dump cycles and the 18.5 foot turning radius makes the **Global M4** highly efficient and comfortable.

EXCEPTIONAL VISIBILITY

ABOVE Exceptional visibility increases operator and pedestrian safety.

BELOW Rear view camera with In-Cab 7" LCD Monitor is standard on every Global Street Sweeper.

LEFT The **Global M4** offers the best maneuverability in its class with its tight turning radius that allows the operator to maneuver easily in cul-de-sacs and close quarters.

Optional Front Articulating brush allows for extra reach to shoulders and center islands. Via In-cab joystic, the articulating front brush can be positioned on left or right side allowing for sweeping on right or left without changing seating positions.

BELOW Elevator Type: optional 11 Flight squeegee with replaceable corded rubber tips; Continuous molded rubber belts combine with optional triple pump option (below) to make **Global M4** the logical choice for sweeping heavy debris such as road millings, sand and gravel up to 3-tons per-minute. That is one ton of sand every 20 seconds! Standard leaf gate system assists in picking up large debris, bottles, large branches and leaves.

▶ THE PERFORMANCE YOU NEED

Performance matched equal-width pickup broom and debris conveying system delivers faster loading and sweeping speeds. The purpose-built chassis is based on four decades of experience designing the most effective, and safe, street sweepers in the industry. Unmatched visibility increases safety by providing drivers a much larger viewing area, while parabolic mirrors offer a depth of view unequal by any other street sweeper in its class.

▶ SAFETY IN DESIGN

Exceptional visibility, incredible turning radius, low center of gravity, and single engine design provide greater stability, safety and lower maintenance costs compared to other chassis type mechanical street sweepers.

EASY TO MAINTAIN

DUST SUPPRESSION SYSTEM consists of 250 Gallon Water tank & (2) Two Water Pumps rated at 3.5GPM @ 45Psi

ABOVE The **Global M4** is designed to make routine maintenance easy, so your sweeper spends more time on the street and less time in the garage. Two swing-out center body panels provide unrestricted access to elevator adjustment, maintenance and daily cleaning.

RIGHT A centralized, weather-proof systems locker fully protects electrical components from the elements while it allows maintenance staff easy accessibility for inspection and troubleshooting.

ABOVE The **Global M4** features many maintenance-friendly attributes, such as a rear swing-out radiator, easy access front mounted AC condenser, brake and windshield washer fluid reservoirs, and cab fresh air filter.

OUTSTANDING AGILITY

- ▶ With a 130 inch wheelbase, the **Global M4** handles like a car, moving in, out and around parked vehicles with ease and agility.
- ▶ Unlike chassis mounted sweepers, the **Global M4** is purpose built for heavy sweeping applications with the main broom located in the center of the sweeper minimizing trailing when turning.

EXCEPTIONAL VISIBILITY

- ▶ Increases operator and pedestrian safety.
- ▶ The **Global M4** offers the best operator visibility of any purpose built wheel street sweeper on the market.
- ▶ Front-and-center cab location provides an unobstructed view of the street, curb and gutter brooms at all times.
- ▶ Maximum visibility means increased sweeping efficiency, better operator effectiveness and faster, safer sweeping performance.

COMFORT AND CONVENIENCE TO REDUCE OPERATOR FATIGUE

- ▶ Inside the **Global M4**, the operator is afforded every comfort and convenience to reduce fatigue and increase productivity.
- ▶ An ergonomically designed instrument panel and suspension seat provide superior ride comfort, resulting in reduced operator fatigue throughout the workday.
- ▶ The forward control cab, with over 3,800 square inches of tinted safety glass, provides the operator with outstanding visibility.
- ▶ Fingertip controls activate climate zone features such as heater, defroster and air conditioning.
- ▶ Parabolic mirrors and side widow defrosters make it easy for the operator to monitor the gutterbrooms in any weather.
- ▶ Plush interior is finished with sound absorbing upholstery and door trim keeping operator comfortable alert and alert.
