

The X-13 is ideal when on-site dumping is required. A 13-cubic yard debris capacity and a payload capacity of up to 24,500 pounds, the highest legally available, maximize jobsite efficiency.

The new is perfect for off-highway applications where weight is not as much of a concern. The increased payload capacity will help save time and money as dumping will be able to happen on site, but the length of the X-13 will maintain its legal highway capacity.

FEATURES & BENEFITS

- LIFETIME Debris Body Warranty
- LIFETIME Water Tank Warranty
- 12 Yard Debris Body
- 1,100 Gallons Water Capacity
- Wireless Remote
- Pneumatic Vacuum Breaker
- Fill Hose Basket
- 8" Manual Rear Door Tube Rack
- Insulated Heated Enclosure
- All weather operation
- Top-Mounted 360° boom provides maximum coverage
- Back Up Alarm
- Low Water Warning Alarm
- Power deck noise reducing enclosure: lance/wand storage rack, enclosure flood light
- 1/EA 6' Extension Tubes
- 1/EA 6' Intake Dig Tube
- Dig Wand Kit

Sized Right for Your Application

POWER. PAYLOAD. PERFORMANCE.

X-VAC | MAXIMIZING YOUR POTENTIAL
