

The tandem axle X-8 by X-Vac offers the perfect balance of debris capacity and size-- leaving a small enough footprint to be perfect for utility work such as utility location and potholing.

Smaller than traditional hydro excavators, the X-8 still effectively and efficiently complete projects while maximizing its maneuverability and capabilities.

## FEATURES & BENEFITS

- Smaller footprint makes the X-8 ideal for utility and construction work
- The quietest hydro excavator in the industry
- Never worry about being overweight again
- Top-Loading 360° boom
- Insulated heated enclosure
- Lifetime warranty on water tanks and debris tank
- Legally loaded 8 yd<sup>3</sup> debris tank
- 23,000-pound payload capacity
- 8" high-capacity vacuum system
- 27" Hg & 4,000 CFM high-performance blower
- 200 CFM 200 psi air compressor for air excavation
- 570 gallons of fresh water
- Triplex water pump: 20 GPM @ 25,000 psi

## OPTIONAL FEATURES

- 400,000 BTU boiler
- Optional tag axle up to 23,000 lb payload

The most scalable Hydro-Excavator in the industry.

**POWER. PAYLOAD. PERFORMANCE.**

# X-VAC | MAXIMIZING YOUR POTENTIAL

The X-8 is a next generation Hydro Excavator specifically designed to help maximize payload capacity. Regardless of how you outfit your X-8, you will benefit from the highest legal payload of any hydro excavator on the market.

STATUS	WHEELBASE	CA INCH	AF INCH	PAYLOAD (LBS)	AF INCH	REAR AXLES LBS	FRONT AXLE LBS	YARDS @ 13LB/GAL
Empty	221	151 3/16	93	0	24,440	9,780	34,220	0
Full Water Tanks	221	151 3/16	93	4,180	29,010	9,390	38,400	--
Full Debris Tank	221	151 3/16	93	22,500	42,500	15,450	58,000	8.6

Effective power transfer with OMSI heavy-duty transfer case design.

27" Hg blower option for all X-Vac models from 2,400 CFM to 6,175 CFM. High-vacuum option allows increased performance in heavy applications.

Top-mounted, 360° boom provides maximum operational coverage and the most efficient material loading performance in the industry.

Super tough, poly-graphite water tank construction ensures rust-free storage and carries a lifetime warranty.

Longest lasting debris tank in the industry with a lifetime warranty.

Heated enclosure allows for year-round use and reduction in noise generated during operation.
