

ENGINEERED FOR PROVEN RELIABILITY

Harben Multi-SkidJetter

► Protected All Year Long

Your unit is fully enclosed, shielding it from rain, snow, and harsh conditions—so the elements never slow you down. With this built-in protection, you can say yes to jobs in every season.

► More Jobs, Less Downtime

300-hour service intervals. No blown seals, no ruined pumps. Keep your revenue rolling and your backlog shrinking, not growing.

► Real Support, Nationwide

Hands-on help, honest answers, delivered straight from a team that stands behind every Harben out there—backed for two full years, and by a culture that says, “Harbensdon’t quit. And neither do we.”

► Safer, Smarter Work

180° pivoting hydraulic hose reel and wireless remote lets you work fast, out of traffic, with fewer crew injuries.

BUILT TO OUTLAST. READY WHEN YOU ARE.

Harben Multi-Skid Jetter

Engineered for big jobs, long service intervals, and uncompromising reliability

Purpose-Built for Sewer & Drain

Engineered specifically for hard, dirty jobs — no generic pumps or afterthought design. Harben's radial piston diaphragm pump keeps you moving even when dry, powering through stubborn blockages year after year.

No-Excuse Reliability

Decades of field use prove its strength. With up to 4,000 PSI at 18 GPM and an antifreeze system, the Multi-Skid delivers steady pressure, fewer breakdowns, and cold-weather readiness whenever you need it.

Made For the Long Haul

Built right here in the USA, covered by a tough-as-nails warranty, and supported by a team that answers the phone when you call.

"It's unstoppable! We've had our Harben jetter for 22 years, and it's unstoppable. The staff have offered great support every time."

— Matthew Zurn, Zurn Plumbing
